SWEDISH

IMPORTANT FLU INFORMATION

We are screening for flu symptoms for the ongoing protection of our patients, visitors and staff.

Have you had any of the following symptoms in the past 24 hours?

- Fever above 100 degrees
- Cough
- Sore throat

If you answer NO to all of the above symptoms:

We will provide you with a sticker to show that you have been screened today and are symptom free. Please wear the sticker. The sticker should be visible to indicate you were screened today. Please check in at the nurses station each day to verify you are well and to receive your sticker for the day.

There should be no more than two visitors per patient.

We thank you for your cooperation.
